

REWAVE SRL's mission is the optimal allocation and use of human, productive, and financial resources to make its product and service offering competitive, professional, flexible, and qualitatively impeccable, while respecting strategic positioning and long-term profitability.

Addressing the market, REWAVE SRL pursues constant performance improvement at all levels, in order to fully and promptly satisfy the individual needs of each Customer, in compliance with laws and mandatory regulations.

The clear factors for pursuing the mission are:

TRUST that REWAVE SRL must generate and maintain for the development of constructive technical-commercial relationships with Customers and suppliers and to motivate the company's human resources

TRANSPARENCY as a constant in ethical business conduct

TEAM SPIRIT as a factor of cohesion to achieve overall efficient and effective activity and to generate a corporate culture consistent with the mission

QUALITY understood in the most total sense as an indispensable condition for qualifying the company in the market

INNOVATION to be applied not only to optimize the offering but also in resource management, internal organization, and market approach

ENVIRONMENTAL CARE to continue to guarantee safety and environmental protection

RESPECT FOR REQUIREMENTS as a commitment to their fulfillment

CONTINUOUS IMPROVEMENT of its management system

For this reason, the Top Management of the company, through courses and meetings, ensures that the above is understood, implemented, and above all supported at all levels of the company.

The Top Management, for its part, commits to periodically reviewing its Quality Policy to guarantee its continued suitability.
